

Lab 04

4.1 Write a program to create a single linked list of n nodes and perform the following menu

based operations on it using function:

- i. Insert a node at the beginning of the SLL
- ii. Insert a node at the end of the SLL
- iii. Insert at a specific position
- iv. Count nodes
- v. Traverse the linked list

4.2 Perform following operations using function on the single linked list using menu driven program:

- i. search an element in the list
- ii. sort the list in ascending order
- iii. reverse the list
